

SEVEN PONDS NATURE CENTER'S

HERP DAY

Saturday, April 20

**NATURE DISCOVERY -
LIVE REPTILE AND AMPHIBIAN
PRESENTATION AT 1:00 P.M.**

Michigan has 52 different species of herpetofauna, or herps, which are reptiles and amphibians. Nature Discovery will be bringing some of Michigan's native herps for a live animal presentation and you won't want to miss it!

**SALAMANDER COUNT AT
JONATHAN WOODS AT 3:00 P.M.**

Join us as we survey the salamander population of Seven Ponds. We will be looking for many examples of the six species that reside in the rich woods while learning about their natural history and conservation. Please sign up for this program by calling the nature center of at the front desk the day of. We will meet at the front desk and car pool over to Jonathan Woods.

**SINGING FROG AND TOAD SURVEY
AT 5:00 P.M.**

13 species of frogs and toads call Michigan home and spring is a great time to hear some of these species sing. Listening to them is also how their populations are surveyed, so join us for an evening of frog songs. Please sign up for this program by calling the nature center of at the front desk the day of.

Scaly and Slimy animals are the best!!!
Join us as we celebrate the amphibians and reptiles of Michigan!
